75 percent of employers prefer to hire certified professionals for supply chain positions, and ISCEA certificate holders are getting the best paid jobs.

Be recognized around the world

ISCEA is the worldwide authoritative resource for supply chain career validation with certificate holders in 47 countries on 6 continents.

| Certified Lean Six Sigma Yellow Belt (CLSSYB)

In the Six Sigma Philosophy there are several belt levels; white, yellow, green, and black belts. During the history of Six Sigma most of the training attention has focused upon Green and Black Belts. This extensive and generally expensive training which provides key Six Sigma statistical tools and approaches allow for complex problems to be solved.

This training is quite expensive and requires a large time commitment for training which generally includes validation projects. The idea that Black Belts and Master Black Belts would in turn teach and educate project sponsors (investors) and project members on the team so that they could become "yellow belts" has historically been overlooked.

We feel that by overlooking this has increased the risk of failure to many

organizational Six Sigma initiatives. The foundation of a Six Sigma company is knowledge management and it is crucial that everyone understands how Six Sigma works and how they can provide value. Also, many plant managers, middle level managers and executives who are asked to invest as sponsors to Six Sigma have not been provided information to make the investments.

ISCEA Certified Lean Six Sigma Yellow Belt training, and Certified Lean Six Sigma Executive Yellow Belt Training provides information to minimize these risks.

The ISCEA Certified Lean Six Sigma Yellow Belt is focused on providing training to all individuals who may be working with now and the future Six Sigma organizations.

| Learn how to use these important Six Sigma Tools and be able to put them to use right away:

1. Voice of the Customer
2. PDCA (Plan, Do, Check, Act)
3. SIPOC (Suppliers, inputs, process, outputs, customers)
4. DMAIC (Define, Measure, Analyze, Improve and Control)
5. RCA (Root Cause Analysis)

| CLSSYB exam preparation course

MODULE 1.

CSSYB - Analyze/Improve

| About ISCEA exams preparation courses

“ *It is a comprehensive opportunity to really learn about supply chain, technology and strategy - Michael Atwater, Entergy Corporation*

*It puts you in contact with Supply Chain's new trends
- Donny Paniagua Ruiz, Florida Ice and Farm Company*

This was a great experience. Even after a long time of service, I still learned a lot - Neven Mladina, Kellogg Brown & Root

I gathered lots of information and ideas to be implemented in our current business projects - Shino Thomas, Theodore Wille Intertrade

*The course provides a different perspective. It clarified concepts that I previously perceived as too complicated to me
- Zamira Alfonso, Axionlog*

*My expectations were met. The content is updated and provides a good perspective on the Supply Chain
- Diana Diaz Porras, Colombina*

It is a practical course. I was able to improve both my skills and knowledge. I recommend it! - Rosa Oritz, General Motors

*There is a great amount of knowledge delivered
- Robinson Alejandro Prieto Camelo, Bimbo Group*

*Very good! Top level!
- Waldemar Nunez, Costa Rican Institute of Electricity*

The content is concrete and precise. It provides you with the power to influence corporate decisions - Amalia Sepulveda, Independence

*I recommend it for both those who need to learn the basics, and those working with these concepts on a daily basis
- Carolina Sánchez Barrantes, Freudenberg Medical*

” *I learned that any problem can be approached from different angles, but you have to remain focused on customer satisfaction and the organization's strategy - Rodrigo Alan Gonzalez Silva, Tyson Foods*
